HANSA FLEX
Hydraulics Canada Inc.

CONNECT • CONVEY • CONTROL

As a Global Fluid Power supplier the HANSA-FLEX group brings expertise in all areas of the industry together, to supply a complete solution to all of your *hydraulic and pneumatic* requirements.

Our 40 plus years of being Europe's largest contractor for ready to install hydraulic hoses and hose lines as well as hydraulic connection components puts us in an excellent position to supply and service all of your needs and requirements.

From our HANSA-FLEX product group we can supply a complete range of hydraulic hose, hose assemblies, adapters, fittings and tubing in all sizes, pressures and end configurations.

Our HDS product group is the world leader in spiral hose assembly technology with hose sizes to 2 1/2 inch and working pressures to 500 bar.

Hydraulic components such as valves, filters, quick couplers, clamps, gauges and test components are all stock items.

A full range of *pneumatic and industrial* components will allow you to *connect, convey and control* all of your applications.

Projects spanning the globe such as Islisberg & Gotthard Tunnels in Switzerland and the Kalgoorlie Gold mine in Australia have benefited from the strength of the HANSA-FLEX group of companies.

Our close working arrangements with OEM companies such as construction equipment leaders LIEBHERR and the TEREX Group, injection molding specialists ENGEL and industrial contractors ThyssenKrupp all have added to our product and technical expertise.
